

RED LINE LIKEWATER® SUSPENSION FLUID

- Provides the least viscosity change of any commercial suspension fluid and will operate unchanged longer than other suspension fluids
- Often used by NASCAR, Indy CAR and ARCA teams in Superspeedway suspension setups

TECHNICAL PROPERTIES

Vis @ 100°C, CSt	2.34
Vis @ 40°C, CSt	4.0
Viscosity Index	800
Pour Point, °C	-50
Pour Point, °C	-58

PACKAGE SIZES:

- 91102 - LikeWater® Suspension Fluid - 16oz
- 91106 - LikeWater® Suspension Fluid - 5 gallon
- 91108 - LikeWater® Suspension Fluid - 55 gallon

ABOUT RED LINE SUSPENSION FLUIDS

These products can be mixed together to create intermediate viscosities, customized for a dampener's particular characteristics.

- Superior shear stability over most popular shock oils
- Allows use of lower viscosities
- Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids
- Eliminates most foaming and provides excellent seal lubricity
- All Red Line suspension fluids can be blended to create intermediate viscosities
- LikeWater® provides the least viscosity change of any suspension fluid on the market
- Extra light-2.5wt is very popular in NASCAR, as well as AMA Motocross
- Antiwear additives assist in longer shock life
