

RED LINE SUPERCOOL[®] PERFORMANCE FORTIFIED WITH WATERWETTER[®]

- Ready-to-use antifreeze/coolant – Prediluted 50/50
- Reduces coolant temps by up to 20°F
- ALL MAKES / ALL MODELS / ANY COOLANT COLOR
- Cars, SUVs, UTVs, Motorcycles, Minivans, Light and Medium Duty Trucks
- 5 year/150,000 mile protection
- Gas and diesel engines
- Cast iron, aluminum and brass systems

Coolant/Water Ratio	Boil Over Protection*	Freeze Protection
50/50	265°F / 129°C	-34°F / -37°C

*Rated using a 15 lb. pressure cap in good condition. Meets ASTM D3306 and ASTM D4985 corrosion protection standards.

PACKAGE SIZES:

81215 – SuperCool Performance - Gallon

ABOUT RED LINE SUPERCOOL FORTIFIED WITH WATERWETTER PERFORMANCE

Red Line now offers a 50/50 prediluted antifreeze/coolant designed to maximize cooling system performance with superior protection against cavitation corrosion/erosion. Using 100% SuperCool Performance protects the entire cooling system, keeping new components like new for 5 years/150,000 miles and prevents further damage to older components. Red Line's proprietary coolant additive formula enhances the fluid's ability to transfer heat, reducing operating temperatures by up to 20°F and prolonging the life of the entire cooling system.
