

RED LINE EXTRALIGHT 2.5WT SUSPENSION FLUID

- Popular in NASCAR's professional categories, motocross and road racing, where top engineers try to run the lightest fluid possible that maintains its viscosity and stability.
- Many motocross tuners use it as a direct replacement in the front forks on Showa and Kayaba forks, with or without revalving
- Also used in road racing and circle track as a direct replacement for Penske's 2.5wt Silkolene fluid

ABOUT RED LINE SUSPENSION FLUIDS

- Superior shear stability over most popular shock oils
- Allows use of lower viscosities
- Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids
- Eliminates most foaming and provides excellent seal lubricity
- Antiwear additives assist in longer shock life
