

RED LINE LIGHTWEIGHT 5WT SUSPENSION FLUID

- Popular as a direct, yet more stable replacement for most 7wt OE suspension fluids
- Used by motorcycle technicians as a most stable replacement in Showa and Kayaba front forks that have not been revalved
- Often used in Sprint Car racing, as well as in CORR and SCORE Off Road competition

TECHNICAL PROPERTIES

Vis @ 100°C, cSt	8.0
Vis @ 40°C, cSt	16.0
Viscosity Index	560
Pour Point, °C	-50
Pour Point, °F	-58

PACKAGE SIZES:

- 91122 - LightWeight 5wt Suspension Fluid - 16oz
- 91126 - LightWeight 5wt Suspension Fluid - 5 gallon
- 91128 - LightWeight 5wt Suspension Fluid - 55 gallon

ABOUT RED LINE SUSPENSION FLUIDS

These products can be mixed together to create intermediate viscosities, customized for a dampener's particular characteristics.

- Superior shear stability over most popular shock oils
- Allows use of lower viscosities
- Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids
- Eliminates most foaming and provides excellent seal lubricity
- All Red Line suspension fluids can be blended to create intermediate viscosities
- LikeWater® provides the least viscosity change of any suspension fluid on the market
- ExtraLight-2.5wt is very popular in NASCAR, as well as AMA Motocross
- LightWeight is often used in Sprint Car racing, as well as in CORR and SCORE Off Road competition
- Antiwear additives assist in longer shock life
