

RED LINE MEDIUM 10WT SUSPENSION FLUID

- More stable replacement fluid for twin-tube racing shock absorbers like Pro Shocks, Carrera and QA1

TECHNICAL PROPERTIES

Vis @ 100°C, cSt	17.7
Vis @ 40°C, cSt	32.0
Viscosity Index	550
Pour Point, °C	-50
Pour Point, °F	-58

PACKAGE SIZES:

- 91132 - Medium 10wt Suspension Fluid - 16oz
- 91136 - Medium 10wt Suspension Fluid - 5 gallon
- 91138 - Medium 10wt Suspension Fluid - 55 gallon

ABOUT RED LINE SUSPENSION FLUIDS

These products can be mixed together to create intermediate viscosities, customized for a dampener's particular characteristics.

- Superior shear stability over most popular shock oils
- Allows use of lower viscosities
- Far less shock fade, provides lower operating temps for same viscosity when compared to conventional fluids
- Eliminates most foaming and provides excellent seal lubricity
- All Red Line suspension fluids can be blended to create intermediate viscosities
- LikeWater® provides the least viscosity change of any suspension fluid on the market
- ExtraLight-2.5wt is very popular in NASCAR, as well as AMA Motocross
- LightWeight is often used in Sprint Car racing, as well as in CORR and SCORE Off Road competition
- Antiwear additives assist in longer shock life
