

RED LINE SI-1[®] COMPLETE FUEL SYSTEM CLEANER

- Cleans injectors, carburetors, valve and combustion chamber deposits with a concentrated blend of the most powerful high-temp and low-temp detergents available
- Cleans to nearly 100% efficiency in one treatment
- Reduces need for octane by up to two points
- Contains synthetic upper cylinder lubricant
- Cleans pollution control valves
- Use one bottle per tank for most effective treatment of neglected vehicle
- Also use in smaller doses for maintenance as one bottle treats up to 100 gallons
- Suitable for use with oxygenated fuel
- Safe for continual use
- Same chemistry is also available in 4oz dosage as Complete Fuel System Cleaner - Powersports

PACKAGE SIZES:

60103 - SI-1 Fuel System Cleaner -15oz

ADDITIONAL INFORMATION

Formulated with powerful detergents to improve fuel economy and restore power by cleaning intake valves, fuel injectors, carburetors, and combustion chambers. Safe for use in unleaded, reformulated, and oxygenated gasolines and will not harm oxygen sensors or catalytic converters.

Directions:

Add entire bottle to fuel tank for quick cleanup of fuel system. For best results, use full bottle for initial fill into nearly empty tank and refuel up to 20 gallons of gasoline/petrol. For regular maintenance, use half bottle every 1,500 miles.

ADD BEFORE FILLING TANK.
